

Primary science subject leaders' network

These meetings give subject leaders a chance to learn about the latest local and national initiatives in science and keep ahead of developments within the subject.

The network

Meet and interact with other local subject leaders and share best practice about engaging learners and ensuring children progress.

Outcomes

You'll remain up-to-date with developments in the subject. Working with others you'll develop ideas and activities to support interactive teaching and learning in primary science.

"I have a deeper understanding of some scientific concepts and the suggestions for working scientifically tasks can be applied to my science teaching. These will also be helpful in my role as subject leader and I can share them with my colleagues at work."

Claire Berry, 2016 participant

Date: Thursday, 8th November 2018

Pricing: Free to attend

Location: St Anne's Catholic Primary School,
London, SE11 5JA

What are you looking for?

PROFESSIONAL DEVELOPMENT

We offer high-impact professional development across the UK, and online, based on the latest developments in both pedagogy and STEM subjects. We can also tailor professional development to your school's specific needs with our bespoke CPD.

CAREERS EDUCATION

As well as a host of excellent resources on our website including the Careers Toolkit, we also run the STEM Insight programme to give you a unique experience in industry or university through inspiring placements.

INSPIRATION

We've got a host of ways to help you inspire your students: why not bring a STEM Ambassador into your school to talk about STEM subjects and careers, or start a STEM Club to build confidence and teamwork skills?

COMMUNITY

Share your ideas and challenges with teachers and technicians through our online groups and at our networking events. And join us on Twitter - we have over 20,000 like-minded educators following us.

STEM
LEARNING

National STEM Learning
Centre and Network

RECOGNITION

Our recognition schemes and awards allow you, your department and school to showcase the impact you have on your students and colleagues.

RESOURCES

We have over 38,000 quality, STEM teaching resources, available online or at our centre. You can also browse teacher-made resources and submit your own.

STEM Learning operates the National STEM Learning Centre and Network, alongside other projects supporting STEM education
